

**ICCICT2018**  
**LIST of REJECTED PAPERS**

Paper ID	Paper Title
9	E-MARKET
10	Organizational Data mining and data preprocessing for effective Business Intelligence -An analysis
13	Prescriptive analytics for customer recommendation system-A Review
24	A Literature Survey on Secure Exam Management System
26	PHONE FINDER (ANDROID APPLICATION)
27	Vehicle Tracking and Accident Notification Sytem
28	ANALYSIS OF DATA MINING TECHNIQUES FOR AGRICULTURAL SCIENCE
30	Smart Locker Management System Using IoT
38	Data Protection Mechanism to Prevent Data Theft Attack in Cloud using Hierarchical Approach
43	Brainy Streets
44	A Secure Cloud Computing Based Framework For The Blood Bank.
45	Integrated Framework of Digitized Stay
50	Ontology of DC solar system with locally automated power management in Contrast with AC solar system with remote power management
52	A Novel Approach for Real-time Scaling in Load Balancing for Effective Resource Utilization
53	Enhancing the Security for Virtual Machine Migration in Cloud
56	Decision Tree for data with Known Hierarchical Class Labels
57	Business intelligence - CSF
59	A Review Paper On Location Based Food Habit Analysis And Dietary Recommendation For Rural Women
60	La Cuisine Hub-The Food Ordering Progressive Web Application
63	SMART HOME AUTOMATION SYSTEM USING LABVIEW
64	Brain Tumor Detection: A Survey
67	A Comprehensive Survey on Public Auditing for Cloud Storage
68	Design of a Secure and Energy Efficient Wirelless Body Area Network (WBAN) for Remote Health Monitoring Application
69	Work-Stake Hybrid: A Trustless Consensus mechanism for Blockchain
72	A SURVEY ON LUNG CANCER DETECTION USING COMPUTERIZED TOMOGRAPHY(CT) IMAGES
75	Stock Market Prediction Using Artificial Neural Network
82	PrintEase - A Smart Printing Application
85	Adaptive E-Learning System
86	Speed Regulating System and Pothole Detection
87	Detection of Plant Disease using Image Processing
94	Machine Learning for Prediction of Life of Arteriovenous Fistula
95	Cloud-based Core Banking Software For Small Finance Institutes
96	BizMart- Connecting Businesses
99	Billing Queue Scheduling using Priority Scheduling and Shortest Job First Scheduling Algorithm
102	An approach to resolve Heterogeneity using RPC in Client Server Systems
106	Integrating BCI with Virtual Reality
108	SERVO MOTOR BASED DUAL AXIS SOLAR TRACKING SYSTEM
112	Augmented Reality for Restaurant Menu
113	IOT based Parking Automation System
116	A Review on Infrequent (Rare) Pattern Analysis in Data Mining

123	PLACEMATE SAKEC-PORTAL
127	Applying Big Data for digitizing educational sector in Indian context
129	A Survey on Security Attacks and Countermeasures in RPL for Internet of Things
132	Proposed System for IoT Based Prepaid Electric Billing Meter
136	Irrigation Automation Methods: A Survey
139	Rail Track Monitoring Methods for Detection of Cracks: A Survey
141	A Proposed System on Detecting Stress Based On Social Interaction In Social Networks
142	Automating Parsing of Prefetch files in forensic analysis tool
144	Learning to classify non-stationary imbalanced data streams – issues and challenges
145	Road management system for India with the help of Intelligent system and Big data Analytics
