

ICCICT2018

LIST of PAPERS FOR POSTER PRESENTATION

NOTE:

1. Following papers will NOT be sent to IEEE Xplore
2. Abstracts of the papers will be published in the conference proceedings
3. Registered participants will get the certificate of poster presentation in the conference
4. All other benefits like conference kit, lunch etc.
5. Author can access all sessions of Conference and can attend all Keynote and Distinguished Lectures

Paper ID	Paper Title
6	Vehicular Authentication Security Schemes in VANET: A Survey
8	Stock Verification System
14	Research and Implementation of Real-time Face Detection Using OpenCV
16	Low Power Multiple Input Single Output CMOS Gm-C Filter
18	Big Data Platform for Enterprise project management digitization using Machine learning
22	Effective Method Using Classic Network of Robotics Sensors and Effectors in Field of Artificial Intelligent
29	A Switch Triggered Rescue Assistance System for Safety of Women
31	GPS BASED PHONE MANAGEMENT SYSTEM
32	LPC Based Voice Restoration After Total Laryngectomy
39	UBM – UVM Approach for Preventing Insider Data Theft from Cloud Storage
40	A Fully Observable Supply Chain Management System Using Block Chain and IOT
41	Geographical Area Mapping and Classification Utilizing Multispectral Satellite Imagery Processing Based On Machine Learning Algorithms
42	Design and Implementation of Low Cost Spectrometer
47	Code obfuscating a Kotlin-based app with proguard
48	Implementation of a Self-Sustainable Infrastructure with remote power management.
49	A Green Energy System for Smart abode.
55	Pulse Forming Network with Optimized Pulse Power and Rise Time
66	Privacy Preserving and Dynamic Audit Service for Secure Cloud Storage
70	Experimental Study for Comparison of Performance on various Datasets using MapReduce on Distributed File System
71	Frequency Shift Key Receiver using current conveyors
74	GENETIC ALGORITHM TECHNIQUE FOR CONTROLLING NONLINEAR SYSTEM
77	Secure Complaint bot using Onion Routing Algorithm

80	Low Cost and Efficient Gesture Controlled Robotic Arm
81	Augmented Reality based Virtual Furniture
84	Iris Movement Based Assistance for Catatonic Patients
88	IoT enabled dustbins
89	Blockchain for Securing IoT Application: Feasibility and Challenges of Implementation
91	e-classroom
93	Multi-Constraint QoS Disjoint Multipath Routing in SDN
97	Identification, Analysis and Prediction of urban waterlogged areas
100	An Authentication and Tracking Mechanism Using Honeywords and Video Captcha
101	PATCHY RAINFALL ESTIMATION USING IMAGE PROCESSING
104	Chili Plant Disease Detection Using Thermal Imaging Techniques
105	Real Time Hand Gesture Recognition
107	Smart Contracts: Automated Stipulations on Blockchain
110	Comparison of Major Application Layer Protocols in the Internet of Things
111	Markerless Augmented Reality based Interior Designing System.
117	Theoretical Model and Development of IoT based Digital Agricultural System
119	Agricultural Productivity Enhancement System & Livestock Management using Internet of Things.
120	Cotton Crop Disease Detection using Decision Tree Classifier
121	Health Expert
122	Diet System using RETE Algorithm
125	DSP Based Second Order Sliding Mode Controller for Buck Converter
128	A Survey on Intrusion Detection System Approaches in Internet of Things
130	3D Face generation using Sketch
131	A secure E-governance model using Role based Delegation
138	Stock Market Price Movement Prediction using Hybrid Neural Network
143	A Machine Learning Based Medical Data Analytics and Visualization Research Platform
147	IMPLEMENTING LOAD BALANCING STRATEGIES IN SOFTWARE DEFINED NETWORKING (SDN)
